

ANTWERP RHINOPLASTY COURSE

3rd __ 4th june 2016

antwerp __ belgium

- This course will be accredited by the Belgian authorities as continuing medical education for physicians.
- Maximum 40 participant

Dear Colleagues,

We have the honour to announce the 1st Antwerp Rhinoplasty Course. The main focus of the course will be on the life surgery. We have invested a lot in the visualisation of the surgery which will be superb as will be the surgeries themselves. You will see 2 top-rhinoplasty surgeons at work, one tending more to open rhinoplasty, the other preferably using closed techniques.

The 2nd halves of the course days will be spent on lectures given by the same 2 surgeons that will give you a clear overview of the main state of the art techniques as they are used both in open and closed rhinoplasty.

THE COURSE WILL BE GIVEN BY:

Hossam Foda,

Professor & Head of "Facial Plastic Surgery, Otolaryngology Department", Alexandria Medical School, Egypt.

Alexander Berghaus,

Professor & Head of "Department of Oto-Rhino-Laryngology, Head and Neck Surgery", Ludwig-Maximilian University, Munich.

Food and drinks will be according to Belgian standards, which we presume speaks for itself.

The maximum number of participants will be 40.

Kind regards,

Dr Ellen Defrancq and Dr Bart van de Ven

PROGRAM

friday __ 3rd june

- 08:00__08:15 h CASE PRESENTATION
first we ask the audience what they would do in this case and then the surgeon explains from the OR what is his plan

- 16:30__18:30 h PRESENTATIONS
two 30 minutes presentations Hossam Foda
two 30 minutes presentations Alexander Berghaus

End of the course. All participants will receive a document proving they attended a 2 day life-surgery-course in rhinoplasty given by Professor Hossam Foda from Alexandria (Egypt) and Professor Alexander Berghaus from Munich (Germany).

ALEXANDER BERGHAUS

Prof. Dr. Berghaus is university Professor & Head of the department of "Oto-Rhino-Laryngology, Head and Neck Surgery" at the "Ludwig-Maximilian University" in Munich (Germany).

He is famous for his closed rhinoplasty techniques, reason why Karl Storz A.G. has made an interactive DVD with him demonstrating primarily the various closed techniques. But he is also specialized in open techniques and has developed surgical instruments for both open and closed procedures. In 2014 Prof. Berghaus organized the First European Rhinoplasty Summit in Munich together with Prof. Fazil Apaydin from Izmir, Turkey. Prof. Berghaus also is a specialist in the use of alloplastic materials in Facial Plastic Surgery and has written several publications about this subject.

HOSSAM FODA

Prof. Dr. Foda serves as a Professor & Head of the department of "Facial Plastic Surgery, Oto-Rhino-Laryngology" at the "Alexandria Medical School" in Alexandria (Egypt). He is one of the most talented nasal plastic and reconstructive surgeons.

For the past 20 years, Dr. Foda's practice has been focused exclusively on rhinoplasty and his numerous published technical innovations in that field brought him invitations to serve as a guest faculty at the rhinoplasty meetings and courses all over the world.

In most of these teaching courses Dr. Foda was invited to lecture and to operate live on difficult noses to demonstrate his new rhinoplasty techniques.

RATES
