Please indicate your surname, name and "The first Hands-on Human Cadaver Course on Fat Grafting and Stem Cells"  
Bank charges are the responsibility of the participant and should be paid at source in addition to the registration and accommodation fees.

AeQ® Group, the leading specialist for regenerative medicine, invites your for the 2016 Hands-on Human Cadaver Courses at the New Anatomy Training Center of Verona, Italy.

This course is structured and organized based on the Aesthetic Quality Standard® which was introduced to improve safety and efficacy in cosmetic and regenerative medicine. Participants will apply the AQ Standard® into their daily practice.

#### Golden and Silver Course:

All the participants will do fat harvesting and full face treatment with fat, and injection of filler and botox and implant for threads lifts as described above.

70% of the course is hands-on.

30% are lectures about explanations of the techniques and live dissection.

A maximum of two participants will be assigned to each cadaver head and abdomen (four participants in case of silver course).

The abdomen will be the donor area for fat harvesting, that will be performed by every participant.

The fat will be processed (washing, filtration, preparation of stem cells), and will be painted

in green.

The green fat will be injected with a full face procedure (microfat, nanofat and stem cell technique). At the end of the procedure, the position of the injected green fat and its relationships with anatomical structures will be discussed. The faculty is around to support you and will guide you through the whole process. Surgical units, cannulas, kits and disposal material will be provided.

#### Bronze course:

The Anatomy sessions are organized in this way: The instructor will show a layered pre-dissected head, discussing about facial danger zones. The acquired knowledge on facial anatomy will help the participants to understand

Where, What and How much to inject. Different techniques employed will be demonstrated step by step by the experts. Interactive discussion in small group during each session will guide the participants to better understand of regenerative and aesthetic treatments.

# The first Hands-on Human Cadaver Course on Fat Grafting and Stem Cells

Plus PRP, Cellularmatrix, Botox, Fillers  
and **Thread-lift** for facial rejuvenation

Verona, Italy - September 24<sup>th</sup> - 25<sup>th</sup>, 2016

## General Information:

In the Golden Course a maximum of two participants will be assigned to each cadaver head and abdomen. Since the cadavers are fresh and not embalmed, a “close to reality” simulation of fat harvesting and fat, PRP, cellular matrix and fillers injection can be experienced.

## Course Fee :

- Golden Course € 2.000,00 plus vat (€ 2.440,00)
- Silver Course € 1.000,00 plus vat (€ 1.220,00)
- Bronze course € 600,00 plus vat (€ 732,00)

Fee Includes: Hotel, coffee breaks, Lunch and Dinner included

Mario Goisis: Atlas of Full-face Treatment edited by Springer  
Included in the Golden Subscription fee
