

THE NORTH EAST INTERNATIONAL FLAP COURSE

**NEWCASTLE SURGICAL TRAINING CENTRE
FREEMAN HOSPITAL
14-17 September 2015**

**Course Director
Mr Matt Erdmann**

University Hospital of North Durham

A four day course concentrating on the practical anatomy of flaps covering all the regions of the body. The course will be based full time in the dissecting rooms and participants will get first hand experience on raising flaps. The dissections will be complemented by lectures and clinical tutorials. Places will be limited to 28 and early booking is advised. (4 participants per dissection table). An Observer only option is available, at £150 per day. This is ideal if you are still a junior trainee, and wish to understand the principles of flap elevation. Any combination of days is possible. A hand-out of the procedures will be made available for observers on teach day.

Faculty

Mr Sam Rao
